*Contracted
Disposal*

Contractors can be retained by departments to dispose of medical and infectious wastes. If departments use a private contractor, safe and secure interim storage must be provided to prevent inadvertent exposure. In addition, departments are responsible for maintaining the manifest of the quantities of waste disposed of as this is a cradle-to-grave requirement. EHS may be contact for further information for small quantities or one-time generation(<http://www.uaa.alaska.edu/EHSRMS/ehspersonnel.cfm>).
