Perspective

Presented by Stephen Nuss, P.E.
Engineering Divisio Director
Anchorage Water and Wastewater Utility

The Anchorage Water and Wastewater Utility (AWWold)ducts over \$40M worth of design and construction work each yswith over 120 active projects at anygiventime. As an owner, AWWUrisves to make sound decisions duriting design process to ensure the constructed project is successful and the finished project addresses the original problem, while not creating additional maintenance concerns or shifting problems to other locations. AWWU is extremely successfulpinoject execution, but there are timedsuring or after construction is completenthen we scratch our heads and \$ayt Z Ç] Á } oš Z š M _ ^ d Z] •] • v } š Á } OE I] v P

Fairbanks. Stephen is a registered engineer in the State of Alaskandhas overî i Ç Œ • [
experience working in Alaska on rural transportation, environmentale LC C<, ioifmentmentar3Cwu3d3(,
of that time has been spent at AWWU working as a project
engineer, project manager, capital program manager, and most recently tth\$
Engineering Division Director. As the Engineering Division Director, Stisphitemately
responsible for anissueswhich stem from a constructed project.
