

Quick Comparison Chart

Map showing the distribution of various infrastructure and services across a region. The map is color-coded: green for population, red for roads/highways, and white for radio/TV stations. The legend indicates that green represents 1 point per 1,000 population, red represents 1 point for a road and 2 points for a highway, and white represents 1 point for a radio or TV station (up to 10).

Scoring: 1 point per 1,000 population; 1 point per radio or TV station, up to 10; 1 point for road, 2 for highway; 2 points per YES, 1 point per LIMITED, 0 points per NO.
