

IDEA Student Ratings of Instruction

Group Summary Report

Institutional Summary
University of Alaska Anchorage
Spring 2014

This section compares the quality of instruction in this Group to your entire Institution in the same way as

Tables in this section compare ratings of

Percent of classes where Raw Average was at least:
 4.00 ■ 3.75 ■ 3.50 ■

Objective 6: Developing creative capacities (writing, inventing, designing, performing in art, music, drama, etc.)

	Raw Avg.	Adjstd. Avg.	# of Classes
This report	3.9	3.6	397
Institution	3.9	3.7	4,496
IDEA System	3.9	3.9	9,290

This section is intended to support teaching improvement efforts. The 20 teaching methods assessed in the IDEA system (grouped into five "approaches" to teaching) are listed. The number of classes for which a given method was related to relevant (Important or Essential) objectives is indicated in the second column, and the third and fourth columns show the average and standard deviation of ratings. The graph on the right hand side of the page contains the information most pertinent to instructional improvement.

It shows the percentage of classes where the method was employed relatively frequently (a positive finding) or relatively infrequently (a negative finding). It is suggested that teaching improvement efforts be focused on methods/approaches where the dark bar (infrequent use) is greater than 30%, especially if the method is important to objectives in many classes (column 2).

0 classes in this Group used the Diagnostic Form.

Section VI: Student

A. Primary and Secondary Instructional Approaches

This table shows the relative frequency of various approaches to instruction. The success of a given approach is dependent on the class objectives, but since students have different learning styles, it is generally desirable that they be exposed to a variety of approaches.
